Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This office action is in response to amendment filed on Feb. 24, 2004.
2. Claims 1-18 have been amended.
3. Claims 19-26 have been added.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 19, 10, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Fitzgerald et al. (5,765,112).

Regarding claims 1, 19, 10, and 23, Fitzgerald et al. disclose a low cost wide area network for data communication using outbound message specifying inbound message time and frequency including a plurality of base station receivers coupled to a switch for communication with at least one mobile station (see fig.1, elements 60a-c, 30, 25 and its description) the method comprising querying the switch for data related to the coverage provided by the communication network (see fig.1, col.4, lines 20-29); sending the data to a monitoring device (see fig.1, element 21, and its description); and generating and displaying a report related to the data received by the switch, the report indicating areas of communication network providing sufficient, deficient or redundant

radio coverage in the communication (see abstract, fig.1, col.4, lines 20-29 and its description).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 20-21 and 24-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fitzgerald et al. (5,765,112) in view of (Rudow et al. (5,878, 369).

Regarding claims 20-21 and 24-25, Fitzgerald discloses all the subject matter described in rejected claims 1, 19, 10, 23. except display displaying map using one of plurality color however, Rudow, discloses a monitor comprising display which displaying the map. (see fig.1, element 10 and its description). Thus, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use the Rudow's display in Fitzgerald system in order to improve the monitoring system.

Allowable Subject Matter

8. Claims 2-9, 11-18, 22, 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
